BACKGROUND

On December 18, 2013, a petition was filed with the Commission and Commerce by Arch Chemicals, Inc., a Lonza Company, Atlanta, GA, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV and subsidized imports of calcium hypochlorite from China. Accordingly, effective December 18, 2013, the Commission instituted countervailing duty investigation No. 701-TA-510 and antidumping duty investigation No. 731-TA-1245 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the *Federal Register* of December 24, 2013 (78 FR 77712). The conference was held in Washington, DC, on January 8, 2014, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary

of Commerce on February 3, 2014. The views of the Commission are contained in USITC Publication 4452 (February 2014), entitled *Calcium Hypochlorite from China: Investigation Nos. 701-TA-510 and 731-TA-1245 (Preliminary)*.
